

Lesson 9 Skills Practice

Direct Variation

Determine whether each linear function is a direct variation. If so, state the constant of proportionality.

1.

Speed, x	25	30	35	40
Distance, y	100	120	140	160

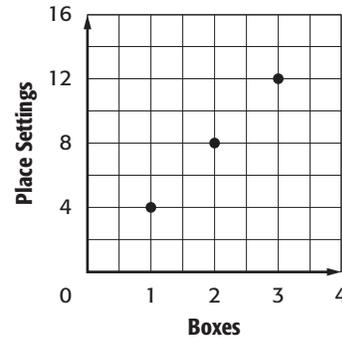

2.

Price, x	\$5	\$8	\$11	\$14
Tax, y	\$0.50	\$0.80	\$1.10	\$1.40

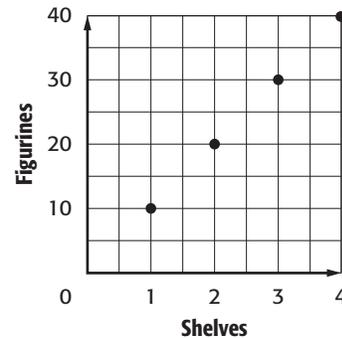

3.

Seconds, x	15	30	45	60
Number of Sit-ups, y	5	10	15	20

4. **DISHES** The number of place settings of dishes varies directly with the number of boxes. How many place settings are in each box?

5. **FIGURINES** Kentish is arranging figurines on shelves. The number of figurines varies directly with the number of shelves. What is the constant of proportionality?

6. **CAT FOOD** Loretta paid \$6.70 for 5 cans of cat food and \$10.72 for 8 cans of cat food. How much did 1 can of cat food cost?

7. **PILLOWS** You need 2 yards of fabric to cover 3 pillows and 6 yards to cover 9 pillows. How much fabric do you need to cover 15 pillows?

8. **READING** The number of pages read varies directly as the number of minutes. If you can read 20 pages in 45 minutes, how many pages can you read in 18 minutes?
